1 GENERAL

Prescient Global Funds ICAV (the "ICAV"), is an open-ended umbrella type Irish collective assetmanagement vehicle with limited liability and segregated liability between funds, registered with and authorised by the Central Bank of Ireland (the "Central Bank") to carry on business as an ICAV pursuant to part 2 of the Irish Collective Asset-management Vehicles Act, 2015 (the "ICAV Act"). The ICAV was previously an open ended investment company with variable capital and segregated liability between funds, incorporated in Ireland on 14 November 1997 as a public limited company pursuant to the Companies Acts and was initially authorised by the Central Bank as a designated investment company under the name Prescient Global Funds plc (the "Company"), pursuant to Part XIII of the Companies Act, 1990 (as replaced by Part 24 of the Companies Act 2014). The Company was subsequently re-authorised with effect from 1 April 2011, pursuant to the UCITS Regulations. Effective from 13 November 2019 the Company converted to the ICAV.

The ICAV is structured as an umbrella fund consisting of different funds each comprising of one or more share classes. The shares issued in each fund will rank pari passu with each other in all respects provided that they may differ as to certain matters including currency of denomination, hedging strategies if any applied to the currency of a particular class, dividend policy, the level of fees and expenses to be charged to a fund or class, subscription or redemption procedures or the minimum subscription applicable. The assets of each fund will be invested separately on behalf of the umbrella fund in accordance with the investment objective and policies of the fund.

At the period end date the ICAV has fifty two active sub-funds (30 June 2024: fifty) in existence.

These interim financial statements (hereafter referred to as the "financial statements") represent the Fairtree Global Flexible Income Plus Fund, Fairtree Global Listed Real Estate Fund and Fairtree Global Equity Fund (each, a "Fund" and together the "Funds"). Under the ICAV Act, it is permissible to have separate sets of financial statements for each sub-fund. As such, these financial statements only relate to the Funds. These financial statements are available free of charge on request from the Prescient Fund Services (Ireland) Limited (the "Administrator" or "Manager").

Fairtree Global Flexible Income Plus Fund was authorised by the Central Bank of Ireland on 28 November 2018 and launched on 21 January 2019. Fairtree Global Listed Real Estate Fund was authorised on 24 October 2019 and launched on 21 April 2020. Fairtree Global Equity Fund was authorised on 23 April 2021 and launched on 28 September 2021.

The ICAV had no employees during the periods ended 31 December 2024 and 31 December 2023.

2 BASIS OF PREPARATION

i. Basis of Preparation

The financial statements are prepared under the historic cost convention as modified to include certain financial assets and financial liabilities classified at fair value through profit or loss.

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS"), as adopted by the European Union, and in accordance with ICAV Act. This interim financial report for the half-year reporting period ended 31 December 2024 has been prepared in accordance with Accounting Standard IAS 34 Interim Financial Reporting.

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. The directors have considered factors such as the financial and operating performance of the Funds, nature of the assets and liquidity of portfolios, investor concentration and pipeline of the Funds which contribute to the Funds' ability to continue as a going concern. The Directors are satisfied that, for a period of at least twelve months from the date of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Funds.

For the 6 months ended 31 December 2024 (continued)

2 BASIS OF PREPARATION (continued)

i. Basis of Preparation (continued)

(a) Standards, amendments and interpretations that are issued and effective for financial periods beginning on or after 1 July 2024

There are no standards, amendments to standards or interpretations that are effective for financial periods beginning on 1 July 2024 that have a material effect on the financial statements of the Funds:

- IAS 1 Presentation of Financial Statements The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish changes in accounting policies from changes in accounting estimates.
- IAS 8 Presentation of Financial Statements The amendments relate to the definition of accounting estimates.
- IAS 12 Income Tax The amendments relate to the International Tax reform Pillar Two Model Rules.

(b) New standards, amendments and interpretations issued but not yet effective for financial periods beginning on or after 1 July 2024 and have not been early adopted

A number of new standards, amendments to standards and interpretations are issued but not yet effective for financial periods beginning after 1 July 2024, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Funds:

- IAS 1 Presentation of Financial Statements These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.
- IAS 21 The Effects of Changes in Foreign Exchange Rates An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.

ii. Estimates and Judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances the result of which forms the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or the period of the revision and the future period if the revision affects both current and future periods.

For the 6 months ended 31 December 2024 (continued)

2 BASIS OF PREPARATION (continued)

ii. Estimates and Judgements (continued)

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

(a) Fair value of derivative financial instruments

The Funds may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. Fair values of such instruments are determined by using valuation techniques. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel at the Manager, independent of the party that created them. Models are calibrated by back-testing to actual transactions to ensure that outputs are reliable.

(b) Fair value of securities not quoted in an active market

The fair value of such securities not quoted in an active market may be determined by the Funds using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. The Funds would exercise judgement on the quantity and quality of pricing sources used. Where no market data is available, the Funds may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry.

iii. Functional Currency and Foreign Currency Translation

The functional currency of the Fairtree Global Flexible Income Plus Fund is Euro ("EUR" or "€") and the functional currency of the Fairtree Global Listed Real Estate Fund and Fairtree Global Equity Fund is USD ("USD" or "\$"). The items included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency of each Fund is the currency that reflects the fact that the redeemable participating shares of the Fund have been subscribed in this currency and the Funds' investments are mainly denominated in this currency. The presentation currency of the Fairtree Global Flexible Income Plus Fund is EUR and the presentation currency of the Fairtree Global Listed Real Estate Fund and the Fairtree Global Equity Fund is USD.

Transactions in foreign currencies are translated at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the foreign currency closing exchange rate ruling at the Statement of Financial Position date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currency exchange rates ruling at the dates that the values were determined. Foreign currency at the foreign currency exchange rates ruling at the dates that the values were determined. Foreign currency exchange differences relating to investments at fair value through profit or loss and derivative financial instruments are included gains and losses on financial assets and liabilities at fair value through profit or loss.

All other foreign currency exchange differences relating to monetary items, including cash, are presented in the Statement of Comprehensive Income within 'net foreign currency gain/(loss) on cash and cash equivalents'.

Notes to the Financial Statements

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements, unless otherwise stated.

i. Financial instruments

(a) Classification

In accordance with IFRS 9, the Funds classify their financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below. In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- (b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Financial assets

The Funds classify their financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial asset.

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. The Funds include in this category short-term non-financing receivables, including cash at bank, margin cash, accrued income and other receivables.

Financial assets measured at fair value through profit or loss

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are SPPI on the principal amount outstanding;
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; and
- (c) At initial recognition, it is irrevocably designated as measured at fair value through profit or loss when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Funds include in this category instruments held for trading. This category includes equity instruments and debt instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative contracts in an asset position.

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES (continued)

i. Financial instruments (continued)

(a) Classification (continued)

Financial liabilities

Financial liabilities measured at fair value through profit or loss

A financial liability is measured at fair value through profit or loss if it meets the definition of held for trading.

The Funds include in this category derivative contracts in a liability position.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Funds include in this category payables and redeemable participating shares.

(b) Recognition

The Funds recognise financial assets and liabilities at fair value through profit or loss on the date the Funds becomes party to the contractual provisions of the instrument. A regular way purchase of financial assets was recognised using trade date accounting. From this date, any gains and losses arising from changes in fair value of the financial assets and liabilities at fair value through profit or loss, were recorded within 'net change in unrealised gain on financial assets and liabilities at fair value through profit or loss' in the Statement of Comprehensive Income.

(c) Measurement

Financial instruments are measured initially at fair value (transaction price) plus, in case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately, while on other financial instruments they are amortised.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in profit or loss in the Statement of Comprehensive Income.

Financial assets that are classified as financial assets at amortised cost are measured at amortised cost using the effective interest method less impairment.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest method. Financial liabilities arising from the redeemable participating shares issued by the Funds are carried at the redemption amount representing the investors' right to a residual interest in the Funds' assets.

(d) Fair Value Measurement Principles

The fair value of marketable investment securities, listed on a recognised stock exchange or traded on any other organised market, is based on quoted prices in an active market at the Statement of Financial Position date without any deduction for estimated future selling costs.

The value of any investment, which is a unit of or a participation in an open-ended investment fund, shall be calculated by reference to the latest available Net Asset Value ("NAV") of such unit/participation provided by the administrator of that investment fund which, in the opinion of the Directors, approximates to fair value.

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES (continued)

i. Financial instruments (continued)

(d) Fair Value Measurement Principles (continued)

The Funds utilise the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

(e) Derecognition

The Funds derecognise a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Funds neither transfer nor retain substantially all of the risks and rewards of ownership and do not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and consideration received (including any new asset obtained less any new liability assumed) is recognised in the Statement of Comprehensive Income. Any interest in such transferred financial assets that is created or retained by the Funds is recognised as a separate asset or liability.

The Funds may enter into sale and repurchase transactions whereby it transfers assets recognised on its Statement of Financial Position, but retains all or substantially all of its risks and rewards of the transferred assets. Such transferred assets are not derecognised.

The Funds derecognise a financial liability when their contractual obligations are discharged, cancelled or expired.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(e) Offsetting

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the Funds have a legal right to set off the recognised amounts and they intend either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at fair value through profit or loss and foreign exchange gains and losses.

There were no master netting agreements in place for the Funds for the periods ended 31 December 2024 and 31 December 2023, therefore the Funds had no legal right to offset.

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES (continued)

ii. Specific instruments

Floating rate notes, credit linked notes, equity linked notes, index linked notes, fixed rate notes and convertible bonds

The market value of marketable investment securities, such as floating rate notes, credit linked notes, equity linked notes, index linked notes, fixed rate notes and convertible bonds, listed on a recognised stock exchange or traded on any other organised markets, is based on quoted last traded prices at the valuation point.

Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The value of any exchange traded futures contracts is the settlement price, as determined by the market in question, as at the relevant valuation point. Where it is not the practice for the relevant market to quote a settlement price, or such settlement price is not available for any reason as at the relevant valuation point, such value is the probable realisation value thereof estimated with care and in good faith by the Directors or another competent person appointed by the Directors.

Investment funds

Financial assets include investments in open-ended investment funds. Fair value is based on the underlying fund administrator's calculation of the NAV per share (market value of the fund's assets less liabilities divided by the number of shares) which will be the latest price published by the investment fund, taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the price may not be fair value.

The investments in managed funds ("managed funds") are initially measured at fair value and then carried at their NAV per unit at the statement of financial position date. This measure approximately represents the fair value of such investments. If their stated NAV per unit is not available, managed funds are valued at the latest available stated NAV per unit.

Options

Options are derivative financial instruments that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase (call option) or sell (put option) to the writer a specified underlying instrument at a specified price on or before a specified date. The Funds enter into exchange-traded and over-the-counter option contracts to meet the requirements of their risk management and trading activities. Both the realised and unrealised gain or loss in respect of options contracts are recognised in profit or loss in the Statement of Comprehensive Income. When a Fund writes a covered call or put option, an amount equal to the premium received by a Fund is included in the Fund's Statement of Financial Position as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. At the period end date there were no covered options held by the Funds (30 June 2023: none).

iii. Unsettled trades

Trade receivables and payables represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively.

iv. Amortised cost measurement

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment in the case of a financial asset.

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES (continued)

v. Investment income

Interest income on debt instruments is accounted for on an effective interest rate basis. Bank interest income is earned on cash and cash equivalents and is recognised on an accrual basis.

Net gains/(losses) from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences, but excludes interest and dividend income, which are presented separately.

Net realised gains/(losses) from financial instruments at fair value through profit or loss are calculated using the average cost method.

vi. Expenses

Expenses are accounted for on an accruals basis.

vii. Net asset value per share

The net asset value per redeemable participating share of each Fund is determined by dividing the value of the net assets of each Fund by the total number of redeemable participating shares of each Fund in issue at that time.

viii. Redeemable participating shares

All redeemable participating shares issued by the Funds provide investors with the right to require redemption for cash at the value proportionate to the investors' share in the Funds' net assets at redemption date. The Funds issue multiple classes of redeemable participating shares which are redeemable at the shareholder's option and may not have identical rights. Therefore the redeemable participating shares are classified as financial liabilities.

Financial liabilities arising from the redeemable participating shares issued by the Funds are carried at the present value of the redemption amount representing the investors' right to a residual interest in the Funds' assets.

ix. Cash and cash equivalents

Cash at bank consists of highly liquid financial assets, held with Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary"), with original maturities of less than three months, other than cash collateral provided in respect of derivatives. Citibank N.A. is used for investor and capital activities.

In accordance with the Investor Money Regulations 2015 for Fund Service Providers, subscription and redemption monies are routed through a cash collection account in the name of the ICAV.

x. Margin cash

Margin accounts represent margin deposits held in respect of financial derivative instruments. Margin cash provided by the Funds is separately identifiable in the Statement of Financial Position and is held with Absa Bank Limited, the broker for financial derivative instruments. A breakdown of margin cash by each Fund is disclosed in Note 7.

For the 6 months ended 31 December 2024 (continued)

3 MATERIAL ACCOUNTING POLICIES (continued)

xi. Distribution Policy

It is not currently intended to distribute dividends to shareholders. In the event that the Directors determine to declare dividends, the relevant supplement will be updated accordingly and shareholders will be notified in advance. Dividends, if declared, will only be paid out of the Funds' net investment income return (i.e. income from dividends, interest or otherwise, less its accrued expenses for the accounting period) and net realised and net unrealised capital gains and will normally be paid to shareholders in September of each period to the bank account specified by them in their application for shares.

xii. Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Funds consider all of their investments in investment funds to be investments in unconsolidated structured entities. The investment funds finance their operations by issuing redeemable participating shares/units which are puttable at the holder's option and entitle the holder to a proportional stake in the respective investment fund's net assets.

4 TAXATION

The ICAV qualifies under Section 739B of the Taxes Consolidation Act, 1997 as an investment undertaking. On that basis, it is not chargeable to Irish tax on its income or gains, other than on the occurrence of a chargeable event.

A chargeable event includes any distribution to shareholders or any redemption or transfer of shares, or the ending of a 'relevant period'.

A relevant period is an eight-year period beginning with the acquisition of shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding relevant period. A chargeable event does not include:

- (a) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- (b) An exchange of shares representing one fund for shares of another fund of the ICAV; or
- (c) Any exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund or company.

In the absence of an appropriate declaration, the Funds will be liable to Irish tax on the occurrence of a chargeable event.

Capital gains, dividends and interest received on investments made by the Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Funds or their shareholders.

For the 6 months ended 31 December 2024 (continued)

5 SHARE CAPITAL

The ICAV has a variable share capital. On establishment, the authorised share capital of the ICAV was \$60,000 divided into 60,000 subscriber shares of a par value of \$1 each. All subscriber shares were redeemed at par value in July 2000. Subsequently there have been 2 subscriber shares issued on 5 February 2020 of a par value of \$1 each. There are in addition, 500,000,000,000 shares of no par value designated as unclassified shares. The unclassified shares are available for issue as participating shares. The holder of each participating share shall be entitled to such dividends as the Directors may from time to time declare. The number of participating shares in issue for each class at 31 December 2024 is noted in the table below. Participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The rights of holders of shares of any class are the following:

- (a) On a vote taken on a show of hands, be entitled to one vote per holder and, on a poll, be entitled to one vote per whole share;
- (b) Be entitled to such dividends as the Directors may from time to time declare; and
- (c) In the event of a winding up or dissolution of the Funds, have the entitlements referred to under the heading "Distribution of assets on a liquidation" as per the Prospectus.

The Funds provide for the daily subscription and redemption of shares.

The following tables detail the subscription and redemption activity during the period ended 31 December 2024:

6 RELATED PARTY TRANSACTIONS AND OTHER KEY SERVICE AGREEMENTS

Related Party Transactions

The Manager was appointed to the Company on 1 April 2011 (effective from 13 November 2019 the Company converted to the ICAV). The management and administration fees of the Manager will be payable by the ICAV and will not exceed 2.5% per annum of the net asset value of each class or such other amount as is set out in the supplement, provided it does not exceed 2.5% per annum of the net asset value of each Fund.

The Manager charges a fee for administration services on a fee scale based on the net asset value of the Funds and ranges from 0.063% to 0.149% of the net asset values.

For Fairtree Global Flexible Income Plus Fund, the Manager is entitled to a variable minimum fee of €25,000 which may be waived at the discretion of the Manager. The Manager is also entitled to a fixed minimum annual administration fee of €4,000.

For Fairtree Global Listed Real Estate Fund, the Manager is entitled to a variable minimum fee of \$30,000 which may be waived at the discretion of the Manager. The Manager is also entitled to a fixed minimum annual administration fee of \$5,000.

For Fairtree Global Equity Fund, the Manager is entitled to a variable minimum fee of \$30,000 which may be waived at the discretion of the Manager. The Manager is also entitled to a fixed minimum annual administration fee of \$5,000.

For the 6 months ended 31 December 2024 (continued)

6 RELATED PARTY TRANSACTIONS AND OTHER KEY SERVICE AGREEMENTS (continued)

Related Party Transactions (continued)

The management and administration fees incurred by the Manager during the periods ended 31 December 2024 and 31 December 2023 are presented in the Statement of Comprehensive Income. The management and administration fees outstanding at 31 December 2024 and 30 June 2024 are disclosed in Note 8.

The Funds appointed Fairtree Asset Management Proprietary Limited (the "Investment Manager") to serve as investment manager to the Funds. The Funds will discharge the fees and out-of-pocket expenses of all service providers. The fees will accrue and be payable monthly in arrears out of the assets of the Funds.

The following tables detail the different investment management fee percentages charged across the various classes of shares by the Investment Manager for the periods ended 31 December 2024 and 31 December 2023:

Fairtree Global Flexible Income Plus Fund

- Class A 0.75%
- Class C 0.75%
- Class D 0.00%

Fairtree Global Listed Real Estate Fund

- Class A1 1.25%
- Class C1 0.40%
- Class D1 0.00%

Fairtree Global Equity Fund

- Class A1 0.75%
- Class B1 0.75%
- Class G1 0.00%

The investment management fees incurred by the Investment Manager during the periods ended 31 December 2024 and 31 December 2023 are presented in the Statement of Comprehensive Income. The investment management fees outstanding at 31 December 2024 and 30 June 2024 are presented in Note 8.

In respect of the Fairtree Global Equity Fund, the Fund will pay the Investment Manager a performance fee in respect of only Class A shares payable out of the assets of the Fund attributable to their Class A shares at each valuation point and payable annually in arrears and calculated by the Administrator on each business day, to be verified by the Depositary. This fee will be equal to a factor applied to the daily share class NAV applicable to such Class. Such factor shall be 15% of the difference between the daily cumulative performance of the NAV attributable to Class A after deduction of the class' applicable investment management fee, and the daily cumulative performance of the Benchmark. The performance fees incurred during the periods ended 31 December 2024 and 31 December 2023 are presented in the Statement of Comprehensive Income. The performance fees outstanding as at 31 December 2024 and 30 June 2024 are presented in Note 8.

In addition, the Funds will discharge any transaction charges of the Depositary and any subdepositary (at normal commercial rates), which will be borne directly by the Funds. The Investment Manager may from time to time at its sole discretion and out of its own resources rebate to intermediaries and/or shareholders part or all of the investment management fee.

For the 6 months ended 31 December 2024 (continued)

6 RELATED PARTY TRANSACTIONS AND OTHER KEY SERVICE AGREEMENTS (continued)

Related Party Transactions (continued)

In the case of any fees or expenses of a regular or recurring nature, such as audit fees, the Directors may calculate such fees and expenses on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any period.

Hermanus Steyn (Director's fee: €18,750 (31 December 2023: €18,750)) and Carey Millerd (Director's fee: €18,750 (31 December 2023: €18,750)) are also Directors of the Manager. Their Director's fees cover all funds which form part of the ICAV. Each Fund pays a pro-rata portion of these fees.

Directors' fees that were charged for the periods ended 31 December 2024 and 31 December 2023 are disclosed in the Statement of Comprehensive Income. Any amounts that are due to the Directors as at 31 December 2024 and 30 June 2024 are disclosed in Note 8. In addition, the Directors receive reimbursement for travel and other out-of-pocket expenses relating to attendance at meetings and other matters, including any expenses relating to the performance of due diligence for the benefit of the Funds.

Key Service Agreements

The Depositary shall be entitled to receive out of the assets of the Funds an annual fee, accrued at each valuation point and payable monthly in arrears, based on following fee scale:

- 0.02% on each Fund's net asset value up to \$250 million;
- 0.015% on each Fund's net asset value above \$250 million.

The minimum monthly fee shall be \$1,000, exclusive of out-of-pocket expenses.

The depositary fees incurred the periods ended 31 December 2024 and 31 December 2023 are presented in the Statement of Comprehensive Income. The depositary fees outstanding at 31 December 2024 and 30 June 2024 are presented in Note 8.

The Funds receive legal advice from Matheson Solicitors. The legal fees incurred during the periods ended 31 December 2024 and 31 December 2023 are presented in the Statement of Comprehensive Income within 'Professional fees'. There are no legal fees outstanding at 31 December 2024 and 30 June 2024.

For the 6 months ended 31 December 2024 (continued)

10 TRANSACTION COSTS

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

For Fairtree Global Flexible Income Plus Fund, transaction costs for the period ended 31 December 2024 of €2,444 (31 December 2023: €2,418) have been included in the Statement of Comprehensive Income.

For Fairtree Global Listed Real Estate Fund, transaction costs for the period ended 31 December 2024 of \$39,027 (31 December 2023: \$57,506) have been included in the Statement of Comprehensive Income.

For Fairtree Global Equity Fund, transaction costs for the period ended 31 December 2024 of \$147,680 (31 December 2023: \$45,226) have been included in the Statement of Comprehensive Income.

Only transaction costs which are separately identifiable are disclosed. These include transaction costs paid to depositories and sub-depositaries, identifiable brokerage charges and commissions, identifiable transaction related taxes and other market charges and separately identifiable transaction costs related to Financial Derivative Instruments.

11 NET ASSET VALUE PER PARTICIPATING SHARE HISTORY

14 SOFT COMMISSION ARRANGEMENTS

There were no soft commission arrangements affecting the Funds during the period ended 31 December 2024 (31 December 2023: \$nil).

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK

Risk Factors

The Funds' activities expose them to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk, liquidity risk and operational risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds may use derivative financial instruments to moderate certain risk exposures.

The Fairtree Global Flexible Income Plus Fund's objective is to generate a high level of current income which may have been achieved by investing in debt and debt-related securities.

The Fairtree Global Listed Real Estate Fund's objective is to provide investors with capital appreciation and to generate income over the medium to long term through exposure to international real estate assets.

The Fairtree Global Equity Fund's objective is to provide investors with long term capital growth by investing in global equity markets.

Asset allocations are determined by the Funds' Investment Manager, who manages the distribution of the assets to achieve the investment objectives. Divergence from target asset allocations and the composition of the portfolios is monitored by the Funds' Investment Manager. In instances where the portfolios have diverged from target allocations, the Funds' Investment Manager will aim to rebalance the portfolios to fall in line with the target asset allocations.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Funds are discussed below.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

The Funds' strategies on the management of investment risk is driven by the Funds' investment objectives. The Funds' market risks are managed on a daily basis by the Investment Manager in accordance with policies and procedures in place.

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Market Risk (continued)

Currency Risk

The Funds hold assets in currencies denominated in currencies other than their functional currencies. Consequently, the Funds are exposed to risks that the exchange rates of their currencies relative to other foreign currencies change in a manner that have an adverse effect on the value of that portion of the Funds' assets or liabilities denominated in currencies other than their functional currencies. The Funds' Investment Manager may, but is not obliged to, mitigate this risk by using financial instruments. The Investment Manager is responsible for monitoring the Funds' currency exposures.

The tables below disclose the Funds' exposures to foreign currencies at the reporting date, as well as a sensitivity analysis. Net currency exposures of less than 5% of the net assets attributable to holders of redeemable participating shares have been grouped together as 'Other'.

Sensitivity analysis: As at 31 December 2024 and 30 June 2024, had the EUR and USD strengthened by 5% in relation to the Funds for all currencies, with all other variables held constant, net assets attributable to holders of redeemable participating shares would have decreased/(increased) by the amounts shown below.

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Market Risk (continued)

Interest Rate Risk

The Funds' interest bearing financial assets and liabilities expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. Any excess cash and cash equivalents are invested at short term market interest rates.

The Funds' interest rate risks are managed on a daily basis by the Investment Manager in accordance with policies and procedures in place. Where the interest rate risks are not in accordance with the investment policies or guidelines of the Funds, the Investment Manager will aim to rebalance the portfolios.

Notes to the Financial Statements For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Market Risk (continued)

Interest Rate Risk (continued)

The tables below summarise the Funds' exposures to interest rate risk. It includes the Funds' assets and trading liabilities (excluding net assets attributable to the redeemable participating shares) at fair values, categorised by the earlier of contractual re-pricing or maturity dates. The net assets attributable to the redeemable participating shares is a non-interest bearing liability.

	Less than 1 Month	1 – 3 Months	3 Months to 1 Year	More than 1 Year	Non-Interest Bearing	Total
At 31 December 2024						
Fairtree Global Flexible Income Plus Fund	€12,958,787	€410,345	€4,862,600	€57,201,836	€734,378	€76,167,946

Interest Rate Risk (continued)

Sensitivity Analysis

At 31 December 2024 and 30 June 2024, the sensitivities of the Funds' net assets attributable to the redeemable participating shares to a change of interest rates of a 100 basis points are summarised in the table below. If interest rates had lowered by 100 basis points, it would have resulted in an equal but opposite effect on the amounts shown below, on the basis that all other variables remain constant. The sensitivity analysis assumes that an increase in interest rates would have a decrease in the fair value of credit linked notes, convertible bonds and fixed rate notes at the reporting date, and an increase in interest rates would have an increase in the interest income received for cash at bank, margin cash and floating rate notes during the period.

	31 December 2024 Interest Sensitivity Gap ¹	100bps Movement	30 June 2024 Interest Sensitivity Gap ¹	100bps Movement
Fairtree Global Flexible Income Plus Fund	€75,433,568	(€515,778)	€76,937,687	(€524,614)
Fairtree Global Listed Real Estate Fund Fairtree Global Equity Fund	\$819,503 \$279,300	\$8,195 \$2,793	\$33,156 \$485,980	\$332 \$4,860

¹ Net interest-bearing assets.

Actual trading results may differ from this sensitivity analysis and this difference may be material.

Price Risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. It represents the potential loss the Funds might suffer through holding market positions in the face of price movements. The Investment Manager considers the asset allocations of the portfolios in order to minimise the risks associated with particular countries' sectors whilst continuing to follow each Fund's investment objective.

The Funds trade in financial instruments, including derivatives, to take advantage of market movements in fixed income markets. The Funds may therefore invest in fixed income derivatives within defined limits.

All investments present a risk of loss of capital. The maximum loss of capital on debt securities is limited to the fair value of those positions. The maximum loss of capital can be unlimited for short future positions, while the maximum loss of capital for long future positions is limited to the notional contract values of the future positions. The Investment Manager endeavours to moderate this risk through a careful selection of investments and other financial instruments within specified limits. The Funds' overall market positions are monitored on a daily basis by the Investment Manager.

The Funds' investments in equities, fixed income securities, investment funds and derivatives are susceptible to market price risk arising from uncertainties about future prices of the instruments. The Funds' policies are to manage price risk through diversification and selection of securities and other financial instruments within specified limits set by the Manager.

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Market Risk (continued)

Price Risk (continued)

The sensitivity of the Funds' net assets attributable to the redeemable participating shares to changes in market prices are summarised in the tables below. The analysis is based on the assumptions that the relevant prices increased/decreased by the percentage disclosed in the table below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the market prices of the investments held at 31 December 2024 and 30 June 2024.

Actual trading results may differ from this sensitivity analysis and this difference may be material.

Credit linked notes, convertible bonds, fixed rate notes, floating rate notes and index linked notes are also subject to price risk but the principal risks are interest and credit and these holdings are therefore included in the Credit Risk and Interest Rate Risk sections elsewhere in Note 15.

Credit Risk

The carrying amounts of financial assets best represent the maximum credit exposure at the period end date.

All transactions in listed securities are settled/paid upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The Investment Manager of the Funds analyses credit concentration based on the counterparty of the financial assets that the Funds hold.

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Fund, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at period end date 31 December 2024, NTC had a long term credit rating from S&P Global of A+ (30 June 2024: A+).

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Credit Risk (continued)

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Funds' ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the Funds hold the ownership based on information or documents provided by the Funds or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Funds, clearly identifiable as belonging to the Funds, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition, TNTC, as banker, holds cash of the Funds on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Funds will rank as unsecured creditors of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Statement of Financial Position of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian / financial institution in the market.

Insolvency of NTFSIL and/or one of its agents or affiliates may cause the Funds' rights with respect to its assets to be delayed.

The Investment Manager manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments. Substantially all of the financial instruments excluding cash balances are held by the Depositary. Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to securities held by the Depositary to be delayed or limited. The Investment Manager monitors its risk by monitoring the credit quality and financial position of the Depositary used by the Funds.

The Funds are exposed to risks from the use of the Depositary. To mitigate the risks, the Investment Manager employs procedures to ensure that the counterparties are reputable institutions and that the credit risks are acceptable to the Funds. The Funds only transact with depositories who appoint a network of sub-depositaries that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies.

Derivative transactions give rise to counterparty credit risk exposure, as a counterparty to a financial instrument could fail to discharge an obligation or commitment that it has entered into with the Fund. The counterparty for the derivatives is Absa Bank Limited.

Substantially all of the cash held by the Funds is held by the Depositary. Bankruptcy or insolvency by the Depositary may cause the Funds' rights with respect to the cash held by the Depositary to be delayed or limited. The Investment Manager monitors this risk by monitoring the credit quality and financial positions of the Depositary. If the credit quality or the financial position of the Depositary deteriorates significantly the Investment Manager will move the cash holdings to another bank.

¹ Held at 31 December 2024 and 30 June 2024.

² Held only at 31 December 2024.

In accordance with the Funds' policies, the Investment Manager monitors the Funds' credit positions on a daily basis. As a result of current market conditions, the credit ratings of counterparties are subject to change and are monitored on a continuous basis by the Investment Manager. The Funds' policies over credit risk are to minimise exposure to counterparties with perceived higher risk of default by dealing only with counterparties of a high credit quality.

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Liquidity Risk

This is the risk that the Funds will encounter difficulty in meeting obligations associated with financial liabilities. The Funds provide for the daily subscription and redemption of shares and are therefore exposed to the liquidity risk of meeting shareholder redemptions at any time. To meet the redemption liability the Funds may be required to sell assets. The Funds' financial instruments include investments which may not be easily liquidated at an amount close to fair value in order to meet liquidity requirements, or to respond to specific events such as deterioration in the credit worthiness of any particular issuer.

The Funds may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds may not be able to quickly liquidate investments in these instruments at an amount close to their fair value to meet their liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer. Each Fund maintains sufficient cash and cash equivalents to meet normal operating requirements and expected redemption requests.

The residual contractual maturities of financial liabilities at the period end date are shown in the tables below as at 31 December 2024:

Redeemable participating shares are redeemed on demand at the holder's option. However, the Board of Directors does not envisage that the contractual maturity disclosed in the tables above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

The following table discloses where ownership in the Funds' shares is highly concentrated. Actions by these investors, such as redemption requests, could materially impact the Funds.

	31 Decem	ber 2024	30 June 2024		
	Number of Investors		Number of Investors	% of Net Assets	
Fairtree Global Flexible Income					
Plus Fund	2	78.63%	2	80.41%	
Fairtree Global Listed Real Estate					
Fund	2	97.68%	2	97.35%	
Fairtree Global Equity Fund	2	83.67%	2	87.65%	

The Investment Manager monitors the Funds' liquidity risk on a periodic basis in accordance with the Funds' investment objectives and guidelines. The Funds' overall liquidity positions are reviewed by the Board of Directors on a periodic basis.

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Funds' processes and infrastructure, and from external factors other than market, credit and liquidity issues, such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

Operational risks arise from all of the Funds' operations. The Funds were established with the purpose of engaging in those activities outlined in the preceding paragraphs. All administration functions have been outsourced to the Administrator. The investment management function is carried out by the Investment Manager.

Fair values of financial assets and liabilities

IFRS 13 'Fair Value Measurement' requires the Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors of the Funds. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

In the case of any transferable securities not listed, quoted or dealt in on a regulated market or for which no quotation or value is available which would provide a fair valuation of, or in respect of which the price is unrepresentative, the value of such security shall be determined on the basis of the probable realisation value and shall be determined with care and good faith by, the Investment Manager, a stockbroker or other competent person appointed by the Investment Manager and approved for this purpose by the Depositary.

For investment funds, where the redemption period is greater than 90 days or the investment is not redeemable by the investee due to the imposition of a gate, side pockets or other contractual limitation, net asset value may not necessarily approximate to fair value as the redemption period is not considered to be regular and frequent. Therefore these limitations are significant unobservable inputs which are considered by management in the determination of an appropriate fair value. These investments are classified as Level 3 in the fair value hierarchy.

Notes to the Financial Statements

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Fair values of financial assets and liabilities (continued)

The Funds review the details of the reported information obtained from the underlying administrators of the investment funds and considers:

- the liquidity of the investment funds or its underlying investments;
- the value date of the NAV provided;
- restrictions on redemptions; and
- the basis of accounting and, in instances where the basis of accounting is other than fair value, fair value estimation information provided by the investment funds' advisors.

The following tables analyse within the fair value hierarchy the Funds' financial assets and liabilities measured at fair value at 31 December 2024 and 30 June 2024.

Fair values of financial assets and liabilities (continued)

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include actively traded equities and futures. The Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include credit linked notes, fixed rate notes and floating rate notes which are not actively traded.

There were no transfers between the fair value hierarchy levels for the periods ended 31 December 2024 and 31 December 2023. Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

The outbreak of the Russia-Ukraine war in early 2022 had a significant impact on global financial markets. For Fairtree Global Equity Fund, in the year ended 30 June 2022, the Board of Directors wrote down the investments held in Russia to \$nil, resulting in unrealised losses of \$534,010 which decreased the net assets of the Fund. The value of these investments was maintained at \$nil as of 31 December 2024 and 30 June 2024. The other Funds had no exposure in Ukraine, Russia or Belarus at 31 December 2024 or 30 June 2024 and up to the date of approval of these financial statements. The Investment Manager will pay close attention to the development of the war and evaluate its impact on the financial position and operating results of the Funds. The Investment Manager will continue to remain alert to the situation and monitor the subscriptions and redemptions of the Funds.

For financial assets and liabilities carried at amortised cost, these are short-term whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties. For net assets attributable to holders of redeemable participating shares, the Funds routinely redeem and issue the redeemable shares at the amounts equal to the proportionate share of net assets of the Funds at the time of redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amounts of the net assets attributable to holders of redeemable participating shares are categorised into Level 2 of the fair value hierarchy.

For the 6 months ended 31 December 2024 (continued)

15 FINANCIAL INSTRUMENTS AND ASSOCIATED RISK (continued)

Capital Management

The Funds regard net assets attributable to holders of redeemable participating shares as capital. The Funds' objectives for managing capital are:

- to invest the capital in investments meeting the description, risk exposure and expected return indicated in its prospectus;
- to achieve consistent returns while safeguarding capital by investing in accordance with its investment policy or holding cash;
- to maintain sufficient liquidity to meet the expenses of the Funds; and
- to maintain sufficient size to make the operation of the Funds cost-efficient.

Neither the ICAV nor the Funds have any externally imposed capital requirements.

Efficient Portfolio Management

The Funds may employ (subject to the conditions and within the limits laid down by the Central Bank) techniques and instruments relating to transferable securities provided that such techniques and instruments are used for efficient portfolio management purposes which includes hedging, stock equalisation and cost control purposes or to provide protection against exchange risk. Such techniques and instruments include but are not limited to derivatives including futures, options, forward foreign exchange contracts, interest rate swap contracts, contracts for difference, stock lending and borrowing and repurchase and reverse repurchase agreements and/or delayed delivery securities. New techniques and instruments may be developed which may be suitable for use by the Funds and the Funds may (subject as aforesaid and in accordance with the requirements of the Central Bank) employ such other techniques and instruments.

The Funds are permitted to engage to a limited extent in the use of derivatives, techniques and instruments permitted for the purposes of efficient portfolio management under the conditions contained in the Central Bank's AIF Rulebook. The net maximum potential exposure created by such techniques and instruments or created through borrowing, under the conditions and limits laid down within the limits contained in AIF Rulebook, shall not exceed 25% of the net asset value of each Fund.

Details of open derivative positions at 31 December 2024 are detailed in the Schedules of Investments. The counterparty with which derivative positions are held is Absa Bank Limited.

There was no collateral received by the Fund during the period to reduce counterparty exposure.

The Funds did not engage in any stock lending arrangements or repurchase and reverse repurchase agreements activities during the periods ended 31 December 2024 and 31 December 2023.

Global Exposure to Financial Derivative Instruments

The Investment Manager's Risk Management department has assessed the risk profiles of the Funds on the basis of the investment policy, strategy and the use of Financial Derivative Instruments. Based on the risk profiles, Risk Management has determined that the method for the calculation of the global exposures to Financial Derivative Instruments for the Funds will be the commitment approach, where the Funds hold Financial Derivative Instruments.

The global exposures for the Funds at period end are as follows:

Global exposure	31 December 2024	30 June 2024
Fairtree Global Flexible Income Plus Fund	€1,754,882	€864,465

For the 6 months ended 31 December 2024 (continued)

16 CONTINGENT LIABILITIES

As at the date of approval of these financial statements, the Directors are not aware of any contingent liabilities relating to the Funds.

17 EXCHANGE RATES

The foreign exchange rates used in the financial statements, expressed as EUR are as follows:

18 SIGNIFICANT EVENTS

Fiona Mulcahy resigned as a director with effect from on 31 December 2024.

19 SUBSEQUENT EVENTS

Emily Davy was appointed as a director with effect from 1 January 2025. Emily Davy is also CEO and a director of the Manager.

The Directors are not aware of any other material events which occurred after the reporting date and up to the approval date of these financial statements.

20 APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 20 February 2025.
