

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Stylo Global Growth Fund

a sub-Fund of PRESCIENT GLOBAL FUNDS ICAV ("THE ICAV")

ISIN: IE000K8PSAL5 , Share Class: C USD. This Fund is managed by Prescient Fund Services (Ireland) Limited (The "Manager")

### Objectives and Investment Policy

The Fund's objective is to generate capital growth over the long-term.

The Fund aims to achieve its objective by investing, either directly or indirectly through global collective investment schemes, in a diversified portfolio of global equities, global fixed income securities, cash and currencies, and indirectly in commodity related securities.

The Fund may invest up to 100% of its Net Asset Value in regulated funds. Through its investment in regulated funds and direct investments, the Fund will obtain exposure primarily to equity securities, but may also take exposure to other asset classes including global fixed income securities, commodity related securities, cash and currencies.

The decision whether to invest directly or indirectly via regulated funds is made by the Investment Manager based on administration ease, cost, liquidity and diversification. The Investment Manager will typically favour direct investment where investing via a regulated fund will result in a higher exposure to a specific security or sector than the Investment Manager is comfortable with or where higher costs will apply by virtue of investing via a regulated fund.

Regulated funds will be selected by the Investment Manager taking into account factors such as investment manager experience, strategy, style, historical performance, track record and risk management philosophy. The Investment Manager may also examine the organisational infrastructure of the investment manager of the regulated fund including regulated status, the quality of the investment professionals and staff, the types and application of internal controls, and any potential for conflicts of interest. The Fund may invest up to 30% of its net assets in cash or ancillary liquid assets such as money market instruments, and other types of debt securities, which will be listed on a Recognised Exchange, and cash equivalents such as certificates of deposit, bankers acceptances, commercial paper and cash deposits denominated in such currency or currencies as the Investment Manager may determine. Debt securities invested in may be

issued by governments or corporates which may be fixed or floating rate. Such debt securities may have a credit rating or an implied credit rating of "investment grade" or below "investment grade" or be unrated at the time of investment or shall be made with issuers who have a credit rating or an implied credit rating of "investment grade" or below "investment grade" or be unrated at the time of investment. The Fund may hedge currency exposure arising from security positions held by the Fund. The Fund may be exposed to all currencies (both OECD and non-OECD, including emerging markets), through both purchases and sales of securities. Investments will have a global focus insofar as investments are not confined or concentrated in any particular geographic region or market. The Fund may have exposure of up to 20% of its Net Asset Value to emerging markets.

The Fund's performance is measured against the peer group average benchmark represented by the Morningstar EAA USD Aggressive Target Allocation (the "Benchmark"). The Benchmark is comprised of an average performance of peer USD denominated funds domiciled in European markets and which have a mandate to invest in a range of asset types for a USD-based investor, including but not limited to, equity, fixed income and cash instruments. The Fund is actively managed. The Benchmark is used as a performance comparator and for risk monitoring purposes. However, it does not define the portfolio composition of the Fund, and the Fund may be wholly invested in securities which are not constituents of the Benchmark. Any income arising from the Fund will be reinvested and it is not intended that the Fund will pay dividends.

You may buy and sell shares in the Fund on each Business Day in Ireland.

Unless otherwise defined in this document, all words and expressions defined in the ICAV's current Prospectus shall have the same meaning herein. Please refer to the "Investment Objectives and Policies" section of the Prospectus and the "Investment Objective and Policy" section of the Supplement for further information.

### Risk and Reward Profile of the Fund

The indicator above is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time.

- It is based on historical data and thus may not be a reliable indication for the future.
- The indicated risk category is not guaranteed and may shift over time.
- The indicator is designed to help investors understand the uncertainties both for loss and for growth that may affect their investment. In this context, the lowest category does not mean "risk free".
- The Fund is classified in the category indicated above due to the past behaviour of its target asset mix. The Fund does not provide its investors with any guarantee on performance, nor on the monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- **Equity Investment** - Value of equities (e.g. shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g. bankruptcy), the owners of their equity rank last in terms of any financial payment from that company.
- **Currency Risk** - the Fund may be exposed to currency risk in

relation the valuation of assets held in currencies other than its base currency.

- **Market Risk** - the Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company or its industry or the economy in which it operates.
- **Foreign Investment** - Foreign securities investments may be subject to risks pertaining to overseas jurisdictions and markets, including (but not limited to) local liquidity, macroeconomic, political, tax, settlement risks and currency fluctuations.
- **Investment in Collective Investment Schemes Risk** - The value of the Fund's shares will be linked to the performance of the underlying schemes and any delay, suspension or inaccuracy in the calculation of the NAV of an underlying scheme will directly impact the calculation of the NAV of the Fund. The risks associated with investing in the Fund may be closely related to the risks to which the underlying schemes are exposed.

Please refer to the "Risk Factors" section of the Prospectus for further information - see under "Practical Information" for how to obtain a copy

## Charges for the Fund

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charges	0.30%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance Fee	0.00%
-----------------	-------

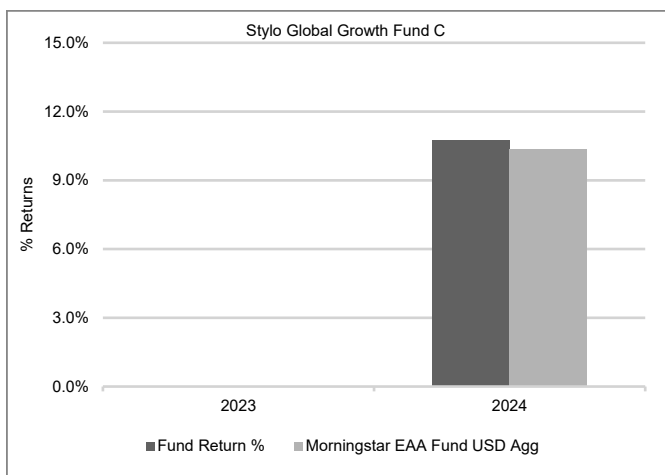

The Exit and Entry charges shown are maximum figures, and in some cases an investor may pay substantially less, or there will be no charges at all. You can find out the actual entry and exit charges from your financial advisor, distributor or the Manager.

The ongoing charges figure is an estimate based on a projection of the expenses of the Fund for the first twelve months of operation of the Fund, which includes estimates of any sales charges and ongoing charges which may be levied by the underlying collective undertakings into which the Fund invests.

This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another UCITS or collective investment undertaking.

You can find more details about the charges in the section of the Fund's Prospectus entitled Fees and Expenses.

## Past Performance

The chart shows the Fund's annual performance in USD for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end.

The Fund was launched in 2023 and this share class was launched in 2023.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

Past performance is based on the net asset value (NAV) of the Fund and is not a reliable indicator of future results.
