Mazi Global Equity Fund

a sub-Fund of PRESCIENT GLOBAL FUNDS ICAV (the "ICAV")

Share Class: A2 USD. This Fund is managed by Prescient Fund Services (Ireland) Limited (The "Manager")

Objectives and Investment Policy

The Fund's objective is to provide investors with long-term capital growth in excess of the MSCI All-Country World Net Total Return USD Index (the "Benchmark").

The Fund aims to achieve its objective by investing in global equity and equity-related securities. The Fund will gain exposure primarily through direct investment in these securities but may also invest indirectly in such securities by investing (up to 10% of its net assets) in collective investment schemes.

The Fund will primarily invest in equities and equity-related securities comprising common stock, preferred stock and convertible bonds, as well as depository receipts for such securities, which equities and equity-related securities will be listed or traded on Recognised Exchanges worldwide.

In selecting investments for the Fund, the Investment Manager pursues an actively managed, long-term investment strategy, holding a portfolio of approximately 30 – 50 high-quality, highly profitable global companies with superior business models, robust competitive positions and dependable track records. The Investment Manager strives to buy these companies at attractive valuations and to hold these businesses for the long term and will look to dispose promptly of a holding where the underlying business demonstrates fundamental deterioration (in terms of profitability, growth or product disruption) or where there is evidence of a long-term deterioration in the end-market of the company in question.

The Fund may invest up to 15% of its net assets in cash or ancillary liquid assets comprising money market instruments, including fixed or variable rate commercial paper, bankers acceptances and other types of debt securities (such as fixed and floating rate bonds), which will be listed on a Recognised Exchange, and cash equivalents such as certificates of deposit and cash deposits denominated in such currency or currencies as the Investment Manager shall determine. Any debt

securities held as ancillary liquid assets may be corporate or government issued and will have a credit rating or an implied credit rating of "investment grade" at the time of investment.

The Fund may hedge currency exposure arising from security positions held by the Fund. The Fund may be exposed to all currencies (both OECD and non-OECD, including emerging markets), through both purchases and sales of securities.

Investments will have a global focus insofar as investments are not confined or concentrated in any particular geographic region or market. The Fund may have exposure of up to 20% of its Net Asset Value to emerging markets.

The Fund's performance is measured against the Benchmark. The Benchmark is a free float-adjusted market capitalization weighted index that is designed to represent the full opportunity set of large- and mid-cap stocks across 23 developed and 25 emerging markets.

The Fund is actively managed in reference to the Benchmark by virtue of the fact that it uses the Benchmark as an outperformance objective. However, the Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

Any income arising from the Fund will be reinvested and it is not intended that the Fund will pay dividends.

You may buy and sell shares in the Fund on each Business Day in Ireland.

Unless otherwise defined in this document, all words and expressions defined in the ICAV's current Prospectus shall have the same meaning herein. Please refer to the "Investment Objectives and Policies" section of the Prospectus and the "Investment Objective and Policy" section of the Supplement for further information.
